Site-Map/Organization of Pages

Logic Process

1. Non-registered User
 - 1.1. Goes to Main Page
 - 1.1.1. Explore/"Feed" page to browse, filter, and view posts
 - 1.1.1.1. Specific post page(s)
 - 1.1.2. Sign-Up page
2. Registered User
 - 2.1. Goes to Main Page
 - 2.1.1. Sign-In Page which redirects to User Profile page upon successful login
 - 2.1.1.1. Explore/"Feed" page to browse, filter, view, and *comment* on posts
 - 2.1.1.1.1. Specific post page(s)
 - 2.1.1.1.1.1. Comment on post and then go to Edit/Delete comment page from post
 - 2.1.1.2. Profile page to view and edit profile details, or go to Comment History Page
 - 2.1.1.2.1. View history of comments by user
 - 2.1.1.3. Create Page to create a post and go to Explore Page
 - 2.1.1.4. Go to profile page and log-out which redirects to Main Page
3. Admin

Same as user, and additionally:

 - 3.1. Goes to Admin page from the user profile
 - 3.1.1. Gets to search for users by name, email, or post
 - 3.1.1.1. Go to user page to view user details and/or activate/deactivate them
 - 3.1.2. Go to post page to be able to edit/take down posts

Design and Styles:

Discussion: The main idea behind our choices was to give the users the idea that our blog posting website is much more sleek and modern than the previous blog post webpages. When someone thinks of blog posts, we usually associate them with websites of the past, in the early 2000s. We wanted to give our webpage a modern feeling, which is what gave us the idea to use bootstrap, a ui package that enables developers to easily create that feeling of a modern web interface with minimal setup. On top of that, we decided to choose the color palette below because it gives

users a feeling of simplicity, with numerous shades of white and bright blue along with shades of blue for highlighting certain parts of the website. Blue is also associated with friendliness and refreshment of the mind, which is a feeling we want to imbue onto our users.

Palette:
#fcf9f0 ,#ffffff, #fcf3f0 ,#f0f3fc , #3992e4

Fonts:
Primary: "Helvetica Neue", Helvetica, Arial, sans-serif

Heading	Example
<h1></h1>	h1. Bootstrap heading
<h2></h2>	h2. Bootstrap heading
<h3></h3>	h3. Bootstrap heading
<h4></h4>	h4. Bootstrap heading
<h5></h5>	h5. Bootstrap heading
<h6></h6>	h6. Bootstrap heading

Examples of each page type (Delete post and post view page have been combined into one page):
